NOTES ON THE UNAUDITED INTERIM FINANCIAL REPORT

(Expressed in Hong Kong dollars)

1 BASIS OF PREPARATION

This interim financial report is unaudited, but has been reviewed by KPMG in accordance with Statement of Auditing Standards 700 “Engagements to review interim financial reports”, issued by the Hong Kong Society of Accountants (“HKSA”). KPMG’s independent review report to the Board of Directors is included on page 12.

This interim financial report has been prepared in accordance with the requirements of the Main Board Listing Rules of The Stock Exchange of Hong Kong Limited, including compliance with Statement of Standard Accounting Practice 25 “Interim financial reporting” issued by the HKSA.

The financial information relating to the financial year ended 31 December 2001 included in the interim financial report does not constitute the Company’s statutory financial statements for that financial year but is derived from those financial statements. Statutory financial statements for the year ended 31 December 2001 are available from the Company’s registered office. The auditors have expressed an unqualified opinion on those financial statements in their report dated 15 April 2002.

The same accounting policies as adopted in the 2001 annual financial statements have been applied to the interim financial report. The Group has adopted the new and revised Statements of Standard Accounting Practice (“SSAPs”) which became effective on 1 January 2002. The adoption of these new and revised SSAPs has no material effect on the Group’s financial results for the six months ended 30 June 2002 except as disclosed in note 15.

4 TAXATION

Taxation included in the consolidated income statement represents reversal of overseas taxation over-provided in prior years.

No provision for profits tax has been made in the consolidated income statement for the six months ended 30 June 2002 as companies in the Group either did not earn profit subject to profits tax during the period or had tax losses brought forward which were sufficient to offset the taxable profits for the period.

5 LOSS PER SHARE

(a) *Basic loss per share*

The calculation of basic loss per share is based on the loss attributable to shareholders of \$50,888,000 (2001: \$46,258,000) and the number of 1,650,658,000 (2001: 1,650,658,000) ordinary shares in issue during the period.

(b) *Diluted loss per share*

The potential issue of ordinary shares in connection with the Company's share options would not give rise to an increase in loss per share and therefore had no dilutive effect on the calculation of the diluted loss per share.

6 FIXED ASSETS

The directors consider that there have been no significant changes to the open market values of the land and buildings and investment properties since 31 December 2001.

7 TRADE AND OTHER RECEIVABLES

Included in trade and other receivables are trade receivables (net of provisions for bad and doubtful debts) with the following ageing analysis:

	At 30 June 2002 \$'000	At 31 December 2001 \$'000
0 - 1 month	5,456	14,474

Deposits, prepayments and other receivables	<u>43,203</u>	<u>44,943</u>
	<u>66,902</u>	<u>71,086</u>

The Group maintains a defined credit policy for its trade customers and the credit terms given vary according to the business activities. The financial strengths of and the period of business with individual customers are considered in arriving at respective credit terms. Reviews of major receivables are conducted regularly.

8 TRADE AND OTHER PAYABLES

Included in trade and other payables are trade payables of \$73,323,000 (2001: \$67,541,000). All trade payables are due within one month.

9 DEBENTURES

Each debenture holder is entitled to be a debenture member of the Hilltop Country Club (the "Club") subject to the Club Rules and By-laws for so long as the debentures shall remain outstanding, and has the right to use and enjoy all the facilities of the Club free from monthly subscription fees. 12 CONTINGENT LIABILITIES

One of the telecommunications content providers of a subsidiary issued a letter through its solicitors in March 2002 claiming damages of US\$1,500,000 from that subsidiary in relation to rate changes applied by that subsidiary for services delivered by the content provider. The claimant also disputes traffic volumes generated in the past and claims to have been underpaid by at least US\$2,736,125.

Management is studying the allegations raised and is seeking legal advice on the subsidiary's legal rights and liabilities. To date, the basis of the claims has not been sufficiently specified and, pending legal advice, the Group is unable to establish the legitimacy of such claims. In the meantime, no provision has been made in the financial statements in connection with these claims.

13 MATERIAL RELATED PARTY TRANSACTIONS

During the period, the Group earned interest income amounting to \$91,000 (2001: \$238,000) from an associate.

During the period, the Group incurred rental expenses payable to a company controlled by a substantial shareholder of the Company in the amount of \$1,422,000 (2001: \$372,000). The terms of the tenancy agreement were determined on an arm's length basis.

14 POST BALANCE SHEET EVENT

A capital reorganisation scheme was approved by the shareholders at an Extraordinary General Meeting on 11 July 2002 and has subsequently been confirmed by the sanction of an order of the High Court of the Hong Kong Special Administrative Region (the "Court") dated 6 August 2002. The details of the capital reorganisation scheme are as follows:

- (a) the authorised share capital of the Company has been reduced from \$1,000,000,000, divided into 2,000,000,000 ordinary shares of \$0.50 each, to \$20,000,000, divided into 2,000,000,000 ordinary shares of \$0.01 each. Such reduction was effected by cancelling paid up capital per share by \$0.49 on each of the 1,650,658,676 ordinary shares in issue on 6 August 2002, being the date on which the court petition was heard, and by reducing the nominal value of all the issued and unissued ordinary shares of the Company from \$0.50 to \$0.01 per ordinary share; and
- (b) upon such reduction of capital taking effect:
 - (i) the authorised share capital of the Company has been increased to its former amount of \$1,000,000,000 by the creation of an additional 98,000,000,000 ordinary shares of \$0.01 each; and
 - (ii) a Special Capital Reserve has been created and credited with an amount equal to the credit arising from the said reduction of capital as detailed in (a) above, which amounted to \$808,822,751. Such reserve shall not be treated as realised profit and shall, for as long as the Company shall remain a listed company, be treated as an undistributable reserve. However, the Special Capital Reserve may be reduced by the aggregate of any increase in the issued capital or in the share premium account of the Company resulting from an issue of shares for cash or other new consideration or upon a capitalisation of distributable reserves.

15 COMPARATIVE FIGURES

Comparative figures of the condensed consolidated cash flow statement have been adjusted as a result of the adoption of the revised Statement of Standard Accounting Practice 15 "Cash flow statements". Bank overdrafts and loans repayable within three months and the related pledged deposits have been excluded from the calculation of cash and cash equivalents.

INDEPENDENT REVIEW REPORT

To the Board of Directors of e-New Media Company Limited

INTRODUCTION

We have been instructed by the Company to review the interim financial report set out on pages 1 to 11.

DIRECTORS' RESPONSIBILITIES

The Rules Governing the Listing of Securities on The Stock Exchange of Hong Kong Limited require the preparation of an interim financial report to be in compliance with the relevant provisions thereof and Statement of Standard Accounting Practice 25 "Interim financial reporting" issued by the Hong Kong Society of Accountants. The interim financial report is the responsibility of, and has been approved by, the directors.

REVIEW WORK PERFORMED

We conducted our review in accordance with Statement of Auditing Standards 700 "Engagements to review interim financial reports" issued by the Hong Kong Society of Accountants.

A review consists principally of making enquiries of Group management and applying analytical procedures to the interim financial report and based thereon, assessing whether the accounting policies and presentation have been consistently applied unless otherwise disclosed. A review excludes audit procedures such as tests of controls and verification of assets, liabilities and transactions. It is substantially less in scope than an audit and therefore provides a lower level of assurance than an audit. Accordingly we do not express an audit opinion on the interim financial report.

REVIEW CONCLUSION

On the basis of our review, which does not constitute an audit, we are not aware of any material modifications that should be made to the interim financial report for the six months ended 30 June 2002.

INTERIM DIVIDEND

The directors do not recommend the payment of an interim dividend for the reporting period.

MANAGEMENT DISCUSSION AND ANALYSIS

RESULTS AND OVERVIEW

The Group recorded turnover of HK\$73,011,000 for the first half of the year and reported an after-tax loss of HK\$50,888,000.

Historically, the Group has two core businesses: 1) Telecommunications business - International Premium Rate Services ("IPRS"); 2) Recreational Clubs. Both are affected by the negative market environment. Management's initiative to IPRS is to consolidate the operation but remain firmly committed to the business. While the operation is smaller, all the essential functions are intact so that we would be well positioned to take advantage of market revival.

Management's response to club business is to adapt to changes. The Shanghai Hilltop Country Club is located in the Putuo District and the infrastructure in the area is now gradually improving. Tsuen Wan District where the Hong Kong Hilltop Country Club is located is changing from an industrial to a residential neighbourhood. We are expanding the facilities of the club premises so that it would appeal to a wider customer base.

Our new business focus is on information technology and bio-medical. The current volatile market condition should ultimately provide good investment opportunities. While management has made no new direct investment in the reporting period but will continue to review proposals and evaluate investment opportunities.

Telecommunications including International Premium Rate Services ("IPRS")

The difficult trading conditions reported in the 2001 Annual Report continued throughout the reporting period. Telecommunications worldwide reported a continued slump, highlighted further in the USA by the problems encountered by operators of "900" services and the events surrounding the share price collapse and bankruptcies of major US listed telecommunications companies. The ramifications following the dissolution of "Concert" in the last quarter of 2001 and the separation and re-establishment of the international traffic services to possibly be resumed by its constituent parts (British Telecom and AT&T) have also fuelled uncertainty and made the planning of new international traffic flows difficult. Acquisitions of key South Pacific telecommunications companies by major carriers in the regions such as Singtel and Telstra have also to some degree, added a further complication to business relationships.

Within this business environment, management has undertaken further major actions to contain costs, particularly in relation to reducing infrastructure (installed telecommunication switch installations; leased lines; operators; and maintenance arrangements; etc) supporting non-profitable or marginally viable traffic routes and services. Efforts have also continued unabated to collect outstanding and overdue payments from final transit carriers and to hasten traffic declarations from originating and/or intermediate telecommunications companies.

Telecommunications including International Premium Rate Services (“IPRS”) (continued)

In line with focusing on a smaller number of higher volume originating markets, management has also been involved and, devoted significant time to seeking to consolidate its relationships with a key group of termination points.

Modest but reasonable progress was also made in the development of Short Message Services (“SMS”) business division. SMSinasia is a content aggregator for text-based SMS games / info services, IVRS games / info services, and download services such as operator logos, picture messages and blinking messages. Content providers around the world are putting their contents in our platforms to be marketed and / or distributed in Hong Kong and Singapore. Management is currently looking into setting up similar platforms in Taiwan and China, offering existing contents.

Club Operations

Although Shanghai Hilltop Country Club is located in the Putuo District, which is at the fringe of downtown Shanghai with a lower-middle class neighbourhood, its overall performance has been improving gradually after management implemented a series of cost reduction and sales promotion programmes. With gradual infrastructural improvement in the neighbourhood such as new roads and extension of the urban subway, the traveling time between the club and downtown Shanghai will be shortened. The future demand on leisure facilities in the area is expected to increase eventually.

In Hong Kong, quality services and new marketing programmes have allowed Hong Kong Hilltop Country Club to maintain a stable performance in the reporting period. As Tsuen Wan is gradually being transformed from an industrial to a residential neighbourhood, the quality of life in the neighbourhood is anticipated to improve together with the future demand of clubhouse facilities. Furthermore, with the completion of West Railway development, it would definitely bring more traffic to Tsuen Wan and provide further opportunities for the club to expand its customer base.

In response to the changing business and demographic environment of both clubs, management is initiating plans to ensure our club premises appeal to new and wider customer base. Management is aiming to transform the traditional recreational country clubs into modern and diversified leisure facilities with plans to introduce spa and health and beauty treatment services.

Other Investments

The first half of 2002 was characterized by worldwide negative sentiment and the risk of global recession. The major equity markets in the world all experienced significant fall in capitalization values. In the reporting period, management adopted a conservative strategy and did not make any new investments, other than completing its commitment made in 2001 in acquiring 20% of the enlarged share capital of Beijing Smartdot Technologies Ltd. The investment in ChinaPay.com Holdings Limited, which was established with the aim of building a unified national bank payment system in cooperation with other strategic partners in the PRC, is in progress and on schedule to complete in the second half of the year. The current investment portfolio of the Group, which now mainly comprises companies in the medical and information technology business, in general, has performed satisfactorily in the reporting period. Under the prevailing environment, management believes that it is of critical importance to preserve the Group’s cash holding and shall continue the pursuit for investment opportunities in information technology and bio-medical in the Greater China Region.

CAPITAL REORGANISATION SCHEME

A capital reorganisation scheme was approved by the shareholders at an Extraordinary General Meeting on 11 July 2002 and later confirmed by the sanction of a Court Order dated 6 August 2002. Under the capital reorganisation scheme, the Company reduced the nominal value of all its shares from HK\$0.50 to HK\$0.01 per share resulting in a reduction of the authorised and issued share capital to HK\$20,000,000 and HK\$16,507,000 respectively. Furthermore, the authorised share capital of the Company was immediately restored to the original amount of HK\$1,000,000,000 by the creation of an additional 98,000,000,000 ordinary shares of HK\$0.01 each. A Special Capital Reserve has been created and credited with HK\$808,823,000 arising from the reduction of the issued share capital.

The capital reorganisation scheme is in place to facilitate the future issue of shares as and when required.

LIQUIDITY AND FINANCIAL POSITION

The Group continues to maintain a position of financial stability underpinned by a cash holding of HK\$642,266,000. As at 30 June 2002, the Group's total borrowings stand at HK\$67,352,000 (31 December 2001: HK\$69,853,000) with HK\$58,542,000 repayment falling due within one year. The Group's gearing ratio, resulting from a comparison of the Group's total borrowings with total equity, was 6.9% at the interim period end date (31 December 2001: 6.8%). The current ratio at 30 June 2002 was 4.7 times (31 December 2001: 5.7 times).

As at 30 June 2002, the Group's borrowings and bank balances were primarily denominated in Hong Kong dollars and United States dollars and exchange differences were reflected in the interim financial report. All remaining borrowings of the Group are either interest free or on a floating rate basis.

In the reporting period, the Group did not resort to acquiring any financial instruments for hedging purposes.

PLEDGE OF ASSETS

Pledge of the Group's fixed deposits of US\$6,110,000 (31 December 2001: US\$6,110,000) and corporate guarantees were given to bankers to secure short term loans, bank overdrafts and factoring facilities to the extent of US\$11,600,000 as at 30 June 2002 (31 December 2001: US\$11,600,000).

EMPLOYEE AND REMUNERATION POLICIES

At the date of this report, the Group employs a total of 240 full time staff with its main workforce stationed in the Group's offices in Hong Kong. The Group's remuneration policies are performance based and are in line with the salary trends in the respective locations. The Group provides employee benefits such as staff insurance schemes, provident and pension funds, discretionary performance bonus, external training support, and a performance based share option scheme.

AUDIT COMMITTEE
